Comments:

Semen evaluation (if appropriate)
Method of collection:
Motility :
Quality:
Abnormal:
Results:

Quantity:
Live/dead:

Comments:

On the evidence of this examination (delete as required):
a) the indications are that this ram is of normal fertility
b) it is not possible to demonstrate that this ram is of normal fertility
c) this ram is not of normal fertility

This certificate cannot be regarded as a guarantee of warranty of fertility (nor proof of infertility, if applicable). The only proof of fertility is pregnancy in an acceptable proportion of fit healthy ewes, mated within their normal breeding season.
